

# “MONOZUKURI” Innovation Seminar

## Purpose

With the aim of the mutual economic investment between Japan and France, ‘Symposium Greater Nagoya 2012’ was held in Nagoya in May this year, which drew large number of participants from companies and associations and strengthened the relationship between Japan and France.

Therefore, to take the opportunity and to promote further exchange between Japan and France, **“MONOZUKURI” Innovation Seminar** \* will be held (details as follows). \* Provisional Title

In the seminar, presentations will be given by the leading manufacturers in the **Greater Nagoya** region, **Daido Steel Co., Ltd.** and **mitsubishi Heavy Industries, Ltd.** And the proposals for business collaboration. We hope the event will be a great opportunity to build the further network between you and **Greater Nagoya** manufacturers.
