

Greater Nagoya Initiative FORUM  
In Mie Prefecture

---

# Mie Aerospace Industry Project

12<sup>th</sup> November 2013

---

Jun Kumoi  
Chairman of MASIP

# Why we founded MASIP ?

## The background

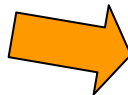

- Accumulating more than 50% of aerospace production output on Central Japan(Aichi Gifu and Mie) area, output of aerospace industries in Mie is much smaller than that in Aichi and Gifu.
- However, not a small number of small and medium-size enterprises (hereafter call SMEs) in Mie which have unique products or advanced techniques are seeking chance to expand their business into aerospace industry.
- Mie Pref. and corporations located in Mie Pref. failed to get government designation of “Special Zone to Create Asia’s No.1 Aerospace Industrial Cluster Area” in 2012.

# Our mission

- Provide opportunities to study aerospace industries and make relationship with Tier1 & Tier2 (and so on) aerospace industries for SMEs in Mie.
- Support the activities of the SMEs in Mie to enter into aerospace industry business .
- Achieve government designation of “Special Zone to Create Asia’s No.1 Aerospace Industrial Cluster Area” .

We succeeded to get  
Government designation  
on this Oct.!

# About Us

- Founded on July 2012
- Chairman : Jun Kumoi (President of Hyakugo Economic Research Institute Co.,Ltd.)
- Office : Personac Corportation in Tsu Mie Pref.  
(Staffing Agency & Nondestructive Inspection)
