

Six companies from the Greater Nagoya area

1. Azumi Techno., Ltd

Strength: Injection molding parts for high precision functional components. High precision and medical equipment parts (micro-needles for medical treatment, hold cutting in disposable needles used for surgery, research equipment parts.)

2. Iwata Tool Co., Ltd

Products: SP center, center drill, TOGLON hard series for HRC40-72 hardened steel, high-speed processing is possible for ordinary steel GP drill, micro tools, PCD, CBN, special order cutting tools and more.

3. Juken Kogyo Co., Ltd

Strength: Precision plastic parts for watch, automobile, meter, camera, etc. Ultra-precision parts for optical and medical applications.

4. Kitaoka Co., Ltd

Strength: Ultra-precision Machining for single crystal diamond, water-jet machining, MC (5axis), NC etc

5. Nagase Integrex Co., Ltd

Products: Manufacture & sale of machine tools, forging machines, electronic measurement units, and industrial machines.

Development & manufacture of various super-precision grinders, nano-precision machines, super-precision measurement systems, etc.

6. Ohori Grinding Company

Strength: Guarantees highest quality implementation of demanding grinding work with highly accurate measurement equipment.

(*) Greater Nagoya region:

Located in the center of Japan, the area has one of the biggest manufacturing industries headed by Toyota Motor Corporation, as well as the biggest aerospace industry. Small and medium enterprises (SMEs) are flourishing in Greater Nagoya, supporting industry in the region with specialized skills and knowledge.
