

## Greater Nagoya International Business Seminar

The Greater Nagoya Initiative is pleased to inform you that we are planning to conduct a seminar on February 2, 2010 to promote foreign direct investment and alliances between overseas and Japanese companies within the Greater Nagoya region.

Greater Nagoya is the area within 100km of the Nagoya Central Business District, including Aichi, Gifu, and Mie prefectures. Buzzing with the manufacturing spirit of monozukuri (literally “the drive to create products of value”), we are home to a myriad of enterprises that give birth to creative and value-added products year after year. This creative drive has manifested itself in a wide range of industrial clusters including Automotive, Aerospace, and Machine Tools. Also world leading industries such as Robotic and IT fields have developed, and the region is considered a distinct area for business investment. For further information about the seminar’s timetable and an application form are attached below. Greater Nagoya Initiative members look forward to seeing you.
