# Inter-Regional Forum 2021 (Bavaria-Greater Nagoya)

Invest in Bavaria Tokyo Office and the Greater Nagoya Initiative Center are organizing an online business matching event, "Inter-Regional Forum 2021 (Bavaria - Greater Nagoya)." The Forum will start with a recorded Presentation Seminar introducing Greater Nagoya and its companies with advanced technologies in automotive, machinery, aerospace and medical manufacturing, followed by Business Matching Meetings. We are inviting Bavarian companies to join this event.

## Introducing Greater Nagoya and its Companies (11/11 10:00- )

### 【Recorded Seminar】

#### ■ Introduction of Greater Nagoya

Mr. Y. Katagiri, Director of International Affairs, Chubu Bureau of Economy, Trade & Industry  
- *Business Advantages of Greater Nagoya, a World Leading Manufacturing Center*

#### ■ Presentations from Companies in Greater Nagoya

ABEX co. Ltd.	INAC Co. Ltd.	Nippon Kouatsu Electric Co.,Ltd. UNITECHNOLOGY Co., Ltd.
ASIA CREATE CO., LTD.	KOYO HIGH PRECISION	Ohori Grinding Company
Azumi Techno Co., Ltd.	NAGOYA LUMBER CO., LTD.	TOYOTEC Co., Ltd.
FUJI SEISAKUSHO CO., LTD.	NIDEK CO., LTD.	Yamada Manufacturing Co., Ltd.

**【Online】** YouTubeLIVE (11.11-11.25 Available on Demand)

**【Language】** English (or Japanese with English subtitles)

**【Audience】** About 100 <Register by Nov. 9 (Tue.)>

**【Fee】** Free

**【To Join:】** Check the URL below and Register! (Pre-Registration required.)

Greater Nagoya Initiative Committee will manage and protect all personal information in accordance with its Privacy Policy.  
The information received will only be used for registration and future notifications related to Inter-Regional Forum 2021.

## Online Business Matching Meetings (to be held early December)

Bavarian companies can apply for one-on-one online meetings with any of the 12 Greater Nagoya companies introduced in the Seminar. Register to obtain further details.

**【Requisite】** A company/sales office/branch office/factory etc. must be located in Bavaria.

**【To Apply:】** Applications will be accepted from Nov.11

[http://greaternagoya.org/en/bavaria-greater\\_nagoya/greater\\_nagoya/](http://greaternagoya.org/en/bavaria-greater_nagoya/greater_nagoya/)

**【We offer:】** Arrangement of online meetings with interpreters.

Meeting arrangements will be notified via German Chamber of Commerce and Industry in Japan.

# Details of Presentation Seminar

## ■ Introduction of Greater Nagoya

Mr. Y. Katagiri, Director of International Affairs, Chubu Bureau of Economy, Trade & Industry  
 - **Business Advantages of Greater Nagoya, a World Leading Manufacturing Center**  
 Greater Nagoya is home to world-leading global companies and smaller companies boasting cutting edge technologies. Find out the advantages and support we offer for you to start business with companies in Greater Nagoya.

## ■ Presentations from Companies in Greater Nagoya

Company	Technology & Product Outline
ABEX co. Ltd.	Produces and sells "GLACERA", a lightweight, porous & foamed inorganic material made from glass waste. GLACERA can be used as industrial material or for construction, farming, deodorization and water purification, etc.
ASIA CREATE CO., LTD.	Develops and sells "Safety Simulators" i.e., training machines to predict risks and prevent occupational hazards. Provides training packages including hardware (simulators), software (instruction know-how) and instructor training.
Azumi Techno Co., Ltd.	Manufactures highly precise mold components and custom-made prototypes for research laboratories etc. Excels in high-precision machining at $\mu\text{m}$ level. Particularly known for machining in high-precision, highly complex and intricate profiles in components for molds, devices and medical & pharmaceutical equipment.
FUJI SEISAKUSHO CO., LTD.	Manufactures stamped bearings used in conveyor rollers and castors for material handling and for automotive applications. The coherent production system can achieve lower cost and faster delivery compared to larger manufacturers. Ensures good quality products through automation, high quality control and continuous improvements in production.
INAC Co. Ltd.	Has all the processes to create a development prototype, from cutting, 3D printing, simple molding by vacuum casting to painting and aluminum vapor deposition plating etc. Excels in processing transparent resin. Can create from just one product.
KOYO HIGH PRECISION	Has skill to machine difficult-to-cut materials, combines various processes to offer complete products. Works with high melting point and high nickel materials and precious metals that are difficult to machine and can achieve high precision ( $\pm 3$ microns), intricate and complex profiles in volume (from 100 to 1,000,000 pieces.)
NAGOYA LUMBER CO., LTD.	Has technology to compress, harden and process wood using just water, heat and pressing force. LIGNOFLEX®, their compressed wood product with added flexibility, can be bent in the direction of the grain and fixated by heat.
NIDEK CO., LTD.	Designs and creates coatings according to customer requirements, e.g., anti-reflection coatings that reduces light reflection while achieving high transmittance; and special coatings that can transmit/reflect specific wavelengths. Also offers functional antifouling hard coating agents for specific applications.
Nippon Kouatsu Electric Co.,Ltd. UNITECHNOLOGY Co., Ltd.	Develops and manufacturers non-destructive magnetic inspection devices for spot welding. Does not require gels as one does in ultrasonic systems (no risk of residual gel), and this handy-sized mobile device can determine nugget growths without changing or installing large equipment into a running production line.

Company	Technology & Product Outline
Ohuri Grinding Company	Strong in precision grinding technology for machining tools and aerospace. Enables ultra-high precision machining and offers machining technologies for the next generation that require higher revolution, lighter weight and smaller size.
TOYOTEC Co., Ltd.	Comprehensive optical manufacturer of opto-mechatronics that commercializes customer needs from design and development. Has complete production capability from design, development and manufacturing. Has in-house capabilities to design and manufacture dedicated testers to evaluate optical performance.
Yamada Manufacturing Co., Ltd.	Procures and processes materials for electric current insulation, heat insulation, lightweight and noise reduction which are all essential for next-generation vehicles (electric vehicles, fuel cell vehicles, etc.). Can develop, design and fabricate molds in short delivery times and in lots of various volumes.

## About Greater Nagoya

Greater Nagoya refers to the economic zone within a 100km radius from Nagoya City, and is one of the three largest metropolitan areas of Japan, encompassing most of Aichi, Gifu and Mie Prefectures.

Location **Center of Japan**

Population **11,320,000** (2019)

GDP **US\$ 501.9 billion** (2017) US\$1=JPY 112.16

**Organized by:** Greater Nagoya Initiative Center, Invest in Bavaria Tokyo Office  
**Supported by:** Consulate-General of Japan in Munich, ITIC,  
 German Chamber of Commerce and Industry in Japan,  
 JETRO Nagoya, JETRO MUNICH
