Mr. Jumbo KUZE CEO, Auto Tech Japan, Inc.

3. Inward foreign Direct Investment Trends and Business Opportunities

Ms. Sachino TAKI Chief, JETRO NAGOYA

Speakers from Overseas companies in Greater Nagoya

Mr. Hidehiko YAMAJO

Regional VP, Japan , UL Japan, Inc.

UL Japan, Inc. was established in 2003 as a Japanese subsidiary of UL Inc., a global third-party safety science leader in the United States. Utilizing UL's global network, seven domestic offices, and an affiliated company are contributing to the development of safe products for our customers, compliance with regulations in each country, and the development of innovation.

Mr. Jumbo KUZE

CEO, Auto Tech Japan, Inc.

Established in 2013 as the Japanese base of Dalian Auto-Tech Incorporated Corporation, China, which was established in 1990. It has offices in Germany, the United States, South Africa, Japan, etc. and has about 1000 employees worldwide. Designs and manufactures automobile bodies, welding lines for home appliances, assembly lines, and transport systems such as AGVs.

Greater Nagoya Initiative Center(GNIC)

GNIC was established by the national government, local governments, industry, research institutes, etc., to promote the internationalization of Greater Nagoya.

GNIC works with national and local governments, industries and research institutes to promote exchange among companies and regions around the world, to facilitate international economic interactions in Greater Nagoya and to attract direct investment to the region.

Greater Nagoya
