

Greater Nagoya Initiative (GNI)

Aiming at promoting Greater Nagoya region, the area within a 100km radius of the Nagoya central business district, Greater Nagoya Initiative was established in 2006 with the participation of diversified entities including national and local governments, economic organizations, private enterprises, and universities and research organizations.

With the wisdom of industry, academia and government and strategic and flexible approaches, GNI intends to pursue realization of a world-leading economic society by enhancing volume of information emitted to outside worlds and creating new business opportunities and the direct investment to the region.
